

## Erratum

### Polyglutamine-Expanded Ataxin-7 Antagonizes CRX Function and Induces Cone-Rod Dystrophy in a Mouse Model of SCA7

We have detected an error in Figure 2C of the La Spada et al. manuscript (31, 913–927) in the September 27, 2001 issue of *Neuron*. In the original version of Figure 2C, the Hsc70 immunostaining for the PrP-SCA7-c24Q transgenic mouse (24Q) was inadvertently omitted, and instead the image showed the Hsc70 immunostaining for the nontransgenic control mouse (NT) twice. The remainder of the original Figure 2 and the accompanying text in the legend to Figure 2 require no further correction.
